Greyliner

The products manufactured by the company mentioned above are board grades which are used for the manufacture of books, files, binders, game boards, puzzles, displays and luxury packaging.

They were examined by us on the content and the release of restricted substances in different regulations such as the

BfR-Empfehlung XXXVI. Papiere, Kartons und Pappen für den Lebensmittelkontakt, neu-gefasst durch 62. Mitteilung, Bundesgesundheitsblatt 14 (1971) 83, zuletzt geändert durch 223. Mitteilung, Bundesgesundheitsblatt 64 (2021) 764, Stand vom 01.04.2021,

(BfR Recommendation XXXVI. Paper and board for food contact, recasted by 62nd Announcement, Bundesgesundheitsblatt 14 (1971) 83, last amended by 223rd Announcement, Bundesgesundheitsblatt 64 (2021) 764, as of 1 April 2021),

as well as of the Council of Europe's

Technical guide on paper and board used in food contact materials and articles, as of 2021.

Furthermore the migration of certain substances was examined according to the

DIN EN 71, part 3 "Safety of Toys, Migration of Certain Elements", state of June 2021,

and to the

Directive 2009/48/EC of the European Parliament and of the Council vom 18. June 2009 on the safety of toys, Official Journal of the European Union No L 170/1 of 30 June 2009, last amendment by the Regulation 2019/1929 of 19 November 2019, Official Journal of the European Union L 299/51 of 20 November 2019, annex II, part III: chemical properties, article 13: migration limits,

as well as the content of these elements and the migration of non-approved colorants, primary aromatic amines and formaldehyde according to the

DIN EN 71, part 10 "Safety of Toys, Organic chemical compounds – Sample preparation and extraction", state of March 2006,

and the

DIN EN 71, part 11 "Safety of Toys, Organic chemical compounds – Methods of analysis", state of January 2006.

The board grades are in compliance with the rules of the

Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC, Official Journal of the European Union L 338/4 of 13.11.2004, modified by app. no. 5.17 of the regulation (EC) No 596/2009 of 18 June 2009, Official Journal of the European Union L 188 of 18 July 2009, article 3, 1. (a) and (b),

as well as of the

Lebensmittel-, Bedarfsgegenstände- und Futtermittelgesetzbuches (Lebensmittel- und Futtermittelgesetzbuch - LFGB) in der Fassung der Bekanntmachung vom 3. Juni 2013 (BGBl. I S. 1426), zuletzt geändert durch Artikel 10 des Gesetzes vom 21. Mai 2021 (BGBl. I S. 1087), §§ 30 und 31,

(Foodstuffs, Consumer Goods and Animal Feed Code (Foodstuffs and Animal Feed Code - LFGB) in the version of the notification of 3 June 2013 (BGBl. p. 1426), last amendment by article 10 of the law of 21 May 2021 (BGBl. I p. 1087), §§ 30 and 31),

and meet the demands of the

BfR-Empfehlung XXXVI. Papiere, Kartons und Pappen für den Lebensmittelkontakt, neu gefasst durch 62. Mitteilung, Bundesgesundheitsblatt 14 (1971) 83, zuletzt geändert durch 223. Mitteilung, Bundesgesundheitsblatt 64 (2021) 764, Stand vom 01.04.2021,

(BfR Recommendation XXXVI. Paper and board for food contact, recasted by 62nd Announcement, Bundesgesundheitsblatt 14 (1971) 83, last amended by 223rd Announcement, Bundesgesundheitsblatt 64 (2021) 764, as of 1 April 2021).

Furthermore the board grades are in compliance with

DIN EN 71, part 3 "Safety of Toys, Migration of Certain Elements", state of June 2021,

and with the

Directive 2009/48/EC of the European Parliament and of the Council vom 18. June 2009 on the safety of toys, Official Journal of the European Union No L 170/1 of 30 June 2009, last amendment by the Regulation 2019/1929 of 19 November 2019, Official Journal of the European Union L 299/51 of 20 November 2019, annex II, part III: chemical properties, article 13: migration limits,

concerning the release of certain elements as well as of the

DIN EN 71, part 9 "Safety of Toys, Organic chemical compounds – Requirements", state of September 2007,

with regard to the migration of non-approved colorants, formaldehyde and primary aromatic amines.

The board grades are in compliance with the rules of the

Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, Official Journal of the European Union L 396 of 30 December 2006, last modified by Commission Regulation (EU) No 2021/1297 of 4 August 2021, Official Journal of the European Union L 282/29 of 5 August 2021, Annex XVII Nos. 51 and 52,

and of the

Bedarfsgegenständeverordnung in der Fassung der Bekanntmachung vom 23. Dezember 1997 (BGBl. 1998 I S. 5), zuletzt geändert durch Artikel 2 Absatz 1 des Gesetzes vom 15. Februar 2016 (BGBl. I S. 198),

(Decree on Consumer Goods in the version of the communication of 23 December 1997 (BGBl. 1998 I p. 5), last modification by Article 2 section 1 of the Law of 15 February 2016 (BGBl. I p. 198)),

regarding the content of phthalates.

As far as the content of heavy metals is concerned, the board grades meet the demands of the

Directive 94/62/EC of the European Parliament and of the Council of 20 December 1994, on packaging and packaging waste, Official Journal of the European Communities L 365/10 of 31 December 1994, last amendment by the Directive (EU) 2018/852 of the European Parliament and of the Council of 30 May 2018, Official Journal of the European Union L 150/141 of 14 June 2018.

Thus the board grades **Eskaboard**, **Eskaboard Thin** and **Greyliner** according to the sample material submitted may be used safely for the production of books, files, binders, game boards and puzzles, as long as they are intended for children older than 36 months. Furthermore, they may be used in displays and luxury packaging.

Moreover the board grades may be safely used in the field of food packaging. They may stand in direct contact with foodstuffs which are peeled, shelled or washed before consumption. The employment as secondary packaging can be achieved by using an appropriate intermediate packaging.

This certificate of compliance has a validity of 2 years and consists of 5 pages.
