

CERTIFICATE OF CONFORMANCE

We herewith confirm that,

CRYLUX 1502 and 1875 references comply with the UNE-EN-ISO 7823-1 and have a 10-year warranty on physical and mechanical properties.

Weathering tests carried out according to SUNTEST aging test (ISO 4892-2) show that, although there is no direct relationship between simulated solar exposure in an aging chamber and a real solar radiation due to changes in environmental conditions, after a period of use of 5 years there should be no significant changes in colour in the references cited above.

More detailed information on POLYCASA CRYLUX™ warranties can be found in the “warranties in accordance to CIGS document”, available on request.

POLYCASA

TECHNICAL SERVICE

The particulars given herein are based on our actual knowledge and experience. They do not release the user from the obligation of carrying out own tests and trials due to the abundant factors which may affect processing and application of our products, and they do neither imply any legally binding assurance of certain properties or suitability for specific purposes. It is the user's responsibility to ensure that any protective rights and existing laws and regulations are observed.
