

Product Information Sheet

Walzenschutzpaste

Roller protecting paste, to be used on dry running rollers when not printing on all printing units, conventional application.

- Prevents dry running of the ink rollers.
- Prevents higher abrasion and overheating of the roller surface.
- Good compatibility with elastomer roller qualities for conventional inks.

Technical specifications

flashpoint °C	VOC EU	Water miscible	roller compatibility
>100	0%	not miscible	conv

Application

Walzenschutzpaste is applied to the roller by spreading the paste evenly with a spatula over the roller surface. After use, Walzenschutzpaste is easily removed by washing off with a roller washing agent.

Storage

This product should be stored in a dry place and at room temperature (5-30°C).

Stability

The shelf life of this product is at least 12 months.

Packaging

2 -kg tin
