

WASH WATER ADDITIVE

Galaxy Wash Water Additive is a balanced additive to reduce the surface tension of the water used in automatic blanket wash installation.

Application: Suitable for use in automatic wash installations. The product relaxes the surface tension which improves the washing power. The additive is corrosion inhibited and contains preservatives against bacteria and algae's.

Procedure to use: Best results are obtained by an addition of 3 – 5% for normal use. If there is a strong build up of paper dust the addition can be increased to maximum 8%.

Product parameters:	Appearance	Transparent liquid
	Specific gravity	1.00 g/cm ³
	Flash point	NA
	Class	NA

Storage conditions: Store at room temperature conditions. Keep away from open fire or heat sources.

Shelf life: In unopened, original packaging, 12 months from manufacturing date

Packaging: 5ltr jerrycan (4 x 5ltr in a box), 10ltr jerrycan or 20ltr jerrycan.

Version: 01-2015

The information provided in this technical data sheet is to inform our customers. A successful application depends on a variety of different factors. Therefore the advice given in this technical data sheet cannot be used as basis for claims. Our recommendation is where possible to perform tests before entering production runs. We reserve the rights to change product characteristics because of technical progress, amendment of applicable law and mandatory production related needs.
