

BöttcherPro Rol-O-Gel

Roller Protecting Paste

Roller protecting paste, to be used on dry running rollers when not printing on all printing units. Even suitable for use with UV printing rollers.

Application

- prevents dry running of the ink rollers
- prevents higher abrasion and overheating of the roller surface
- prolongs roller life
- good compatibility with elastomer roller qualities for both conventional and UV inks
- may easily be rinsed off with water

Features

BöttcherPro Rol-O-Gel is applied to the roller by spreading the paste evenly with a spatula over the roller surface. Due to its consistency it is very easy to apply and use. After use, BöttcherPro Rol-O-Gel is removed by washing off with water.

Note

900 g tin

Package

BöttcherPro Rol-O-Gel is classified according to EC-Directive 1999/45/EC - in its latest version and does not need to be marked. BöttcherPro Rol-O-Gel is not a dangerous good in the sense of national and international transport regulations.
