

PRISCO® QUESTAR® CTP 300 F Fountain Solution Concentrate for Sheetfed presses Alcohol-free printing

Product Description:

PRISCO® **Questar CTP 300F** is a one-step non-corrosive alcohol-free formula designed for use on sheetfed presses equipped with continuous dampening systems running energy-curable inks. This product is especially recommended for use with fast-reaction UV inks. It has a wide operating latitude and works well with water of a low to medium alkalinity level. The product meets the FOGRA test criteria of major press manufacturers.

Advantages:

- Economical - lower dosage required
- Non-corrosive formula
- Produces sharp dots with excellent print quality
- Wide operating latitude and lower water metering speeds
- Prevents plate staining, tinting and toning
- Reduces ink build-up on metering rollers

Directions:

Add 3,0 % - 4,5 % **QUESTAR CTP 300 F** to water to obtain a pH range between 4,6 – 5,2. Once optimum level has been determined, measure conductivity for use as a reference when preparing fresh batches of press-ready fountain solution.

READ SDS BEFORE USING THIS PRODUCT

Product Code: HG05

Packaging:

- 25 Liter cubes
- 200 Liter drums
- 1000 Liter IBC containers

Note: Plastic pumps are required for 200 Liter drums.
