

Description

One paper for all technologies.

The **Emotion Touch 1.8 Natural White** range sublimates the reader's enjoyment by the aesthetics of the paper and the comfort of reading. It offers all authors the possibility to edit and republish, without restriction on the number of prints, thanks to the use of all the printing technologies available today. **Emotion Touch 1.8 Natural White** is truly unique, its homogeneous surface finish, its perfect sheet formation and its high opacity give it all the qualities for high-end book and magazine editions.

Available in different weights, **Emotion Touch 1.8 Natural White** is suitable for the manufacture of all books regardless of their back thickness.

Emotion Touch 1.8 Natural White perfectly accompanies new developments in book manufacturing thanks to its specific adaptation to each inkjet, laser and offset printing process and its ability to meet all print run quantities. The **Emotion Touch 1.8 Natural White** range is available from digital press sizes to web offset reels.
