

# POLISPOT - POLICOAT

FOR A CLEANER, FASTER PROCESS AND THE BEST SHINE RESULTS IN ALL VARNISHING JOBS

Polispot plates are made of three layers that work in synergy as follows:

**THE TOP LAYER GIVES THE BEST SHINE**

it is made of PU that carries the varnish without attracting ink, so the coating is shiny with no need to clean and slow the press

**THE FILLER LAYER ENSURES CLEAN CUTTING AND STRIPPING**

it is made of polymers that cut and strip easily and without residues - nor bad smells

**THE BASE LAYER ALLOWS FOR REPEATED USAGE**

it is made of PET, which is dimensionally very stable and does not stretch or change shape in any way

## POLISPOT AQUA

## FOR AQUEOUS VARNISH

- 50 mic compressible layer
- for best results with light commercial paper and cardboard from 70g to 150g
- for aqueous varnishes

**FILLER LAYER**  
0,750 MM THICKNESS

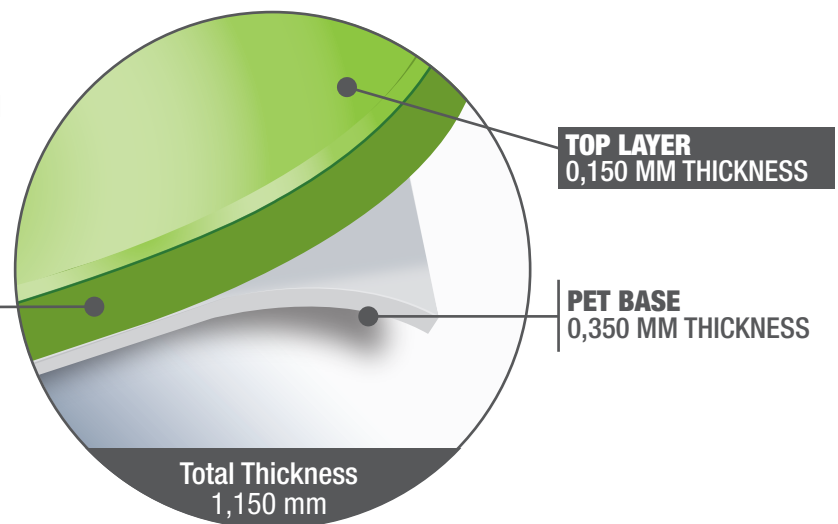

## POLISPOT

## UNIVERSAL VARNISHING PLATE

- 150 mic compressible layer
- for best results with light commercial paper and cardboard from 70g to 300g
- for both UV (short runs) aqueous varnishes

**FILLER LAYER**  
0,650 MM THICKNESS

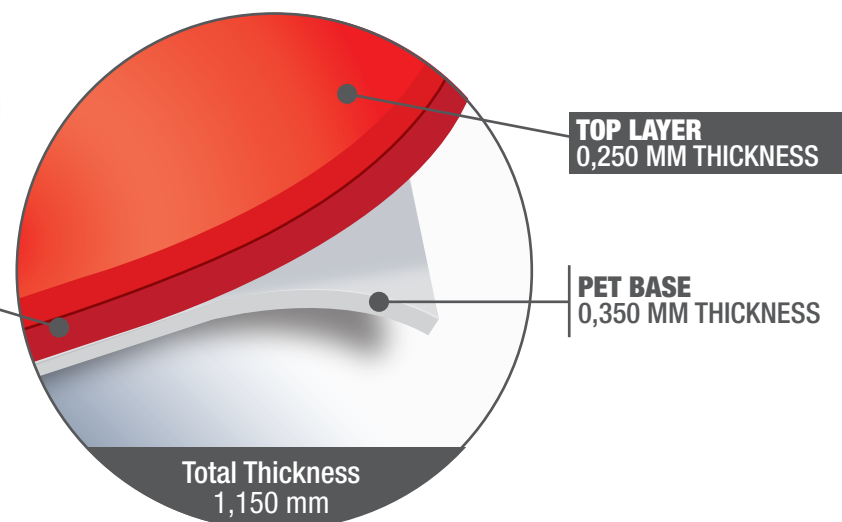

## POLISPOT PLUS

## UNIVERSAL VARNISHING PLATE

- 250 mic compressible layer
- for best results with light commercial paper and cardboard from 70g to 400g
- for both UV and aqueous varnishes

**FILLER LAYER**  
0,550 MM THICKNESS

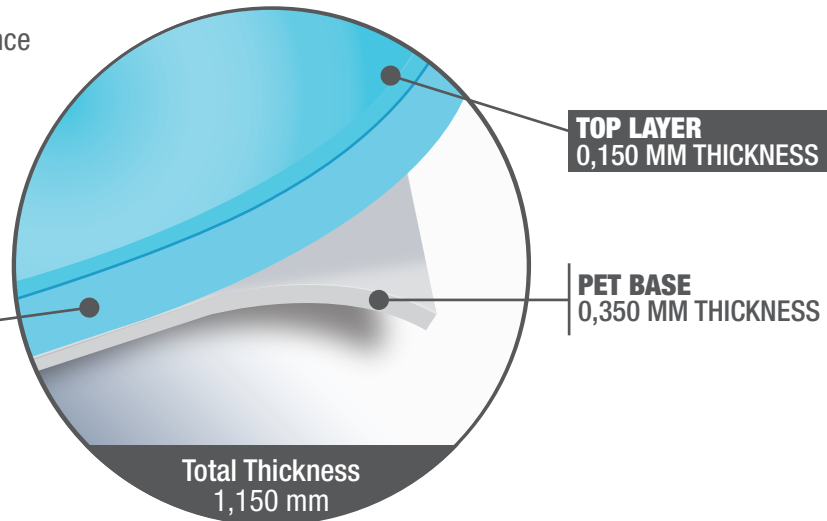

## POLISPOT COMPRESSIBLE

## HIGHLY COMPRESSIBLE

- designed with 2 compressible layers (800 mic) for super resilience
- best handling of the heavy stock cardboard (400g or more) used for packaging application
- for both UV (short runs) and aqueous varnishes

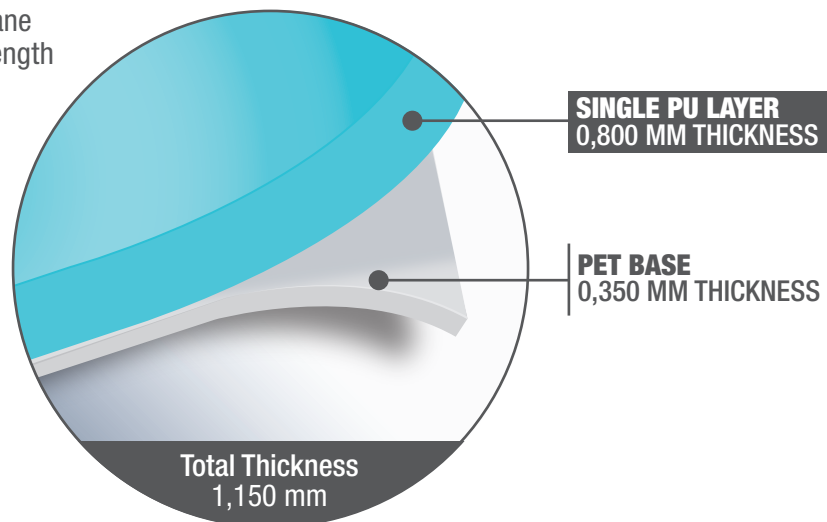

**COMPRESSIBLE FILLER LAYER**  
0,650 MM THICKNESS

## POLISPOT UV

## SPECIFIC FOR UV VARNISH

- designed with a single polyurethane layer (800 mic) for maximum strength
- highest resistance to both chemical and mechanical stress
- for paper and cardboard from 70g to 400g
- specifically designed for long runs with UV varnishes, works at best also with aqueous varnishes

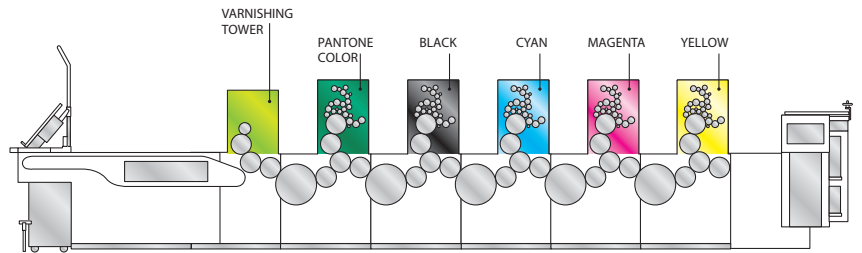

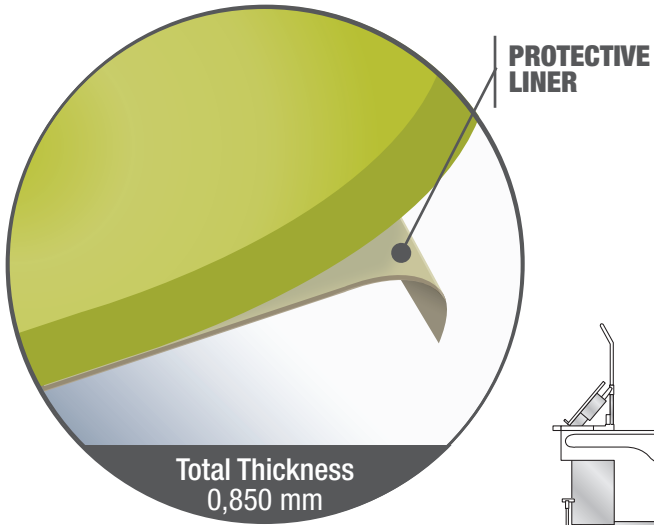

PRODUCT	ROLLS	SHEETS	THICKNESS (mm)		
POLISPOT AQUA	✓	✓	1,15	1,35	1,95
POLISPOT	✓	✓	1,15	1,35	1,95
POLISPOT PLUS	✓	✓	1,15	1,35	1,95
POLISPOT COMPRESSIBLE	✓	✓	1,15	1,35	1,95
POLISPOT UV	✓	✓	1,15	1,35	1,95

# ADHESIVE VARNISHING PLATES

TO BE LAMINATED ON A PRINTING PLATE OR A PET SHEET

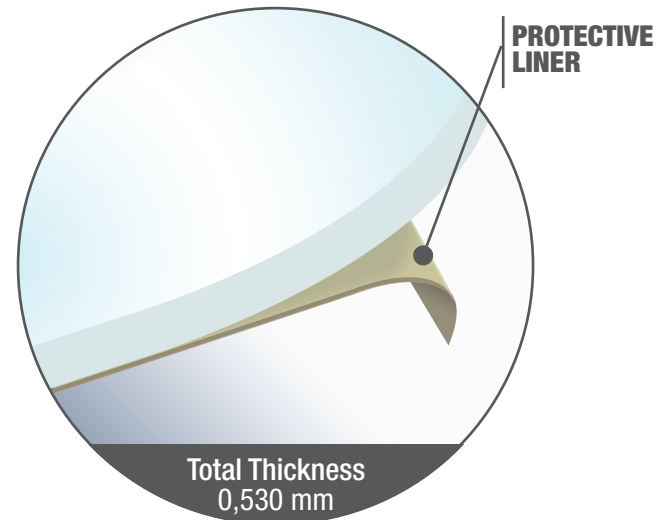

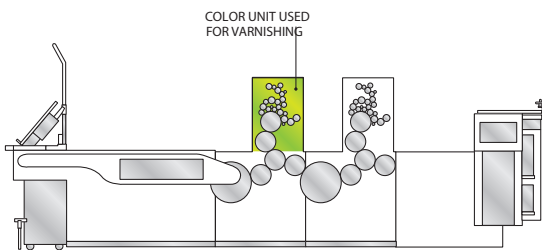

## POLISPOT ADHESIVE

### DIRECT (INLINE) VARNISHING

## POLICOAT

### INDIRECT (OFFLINE) VARNISHING

PRODUCT	ROLLS	SHEETS	THICKNESS (mm)		
POLISPOT ADHESIVE	✓	✓	0,85	1,05	-
POLICOAT	✓	✓	0,53	0,68	-
