

## ANTI-ALG IQ

Anti-Alg IQ is a biocide which has a broad activity spectrum against bacteria, moulds and yeasts.

---

**Application:** Anti-Alg IQ is suitable for the wet state preservation of a wide range of aqueous products including silicone emulsions, fountain solutions, paints and polymer emulsions.

---

**Procedure to use:** Normal use concentrations are in the range 0.25 - 2.0%, depending on the product to be protected and the environmental conditions to which the product will be exposed.

---

<b>Product parameters:</b>	Appearance	Colourless to pale yellow clear liquid
	Specific gravity	1.02 g/cm <sup>3</sup>
	Flash point	NA
	Class	NA

---

**Storage conditions:** Store at room temperature conditions.

---

**Shelf life:** In unopened, original packaging, 12 months from manufacturing date

---

**Packaging:** 1 ltr. bottle.

Version: 01-2012

The information provided in this technical data sheet is to inform our customers. A successful application depends on a variety of different factors. Therefore the advice given in this technical data sheet cannot be used as basis for claims. Our recommendation is where possible to perform tests before entering production runs. We reserve the rights to change product characteristics because of technical progress, amendment of applicable law and mandatory production related needs.
