

Filmic Application Tape

TRANSPARENT STRUCT HIGH TACK

PRODUCT DESCRIPTION Transparent Structured High Tack application tape is an structured filmic tape with micro channels in the adhesive which ensures bubble-free lamination of the tape. This tape has exceptional clarity and lay-flatness assuring trouble-free transfer of vinyl decals and printed graphics.

FEATURES Transparent Structured High Tack application tape performs for both wet or dry applications, without leaving any adhesive residue. The application tape removes effortlessly once the cutting vinyl or printed graphic is applied on the final surface. Tears easily by hand. Ideal for difficult to transfer films for example when transferring fine lettering.
