## TECHNICAL DATA SHEET

## 1. PRODUCT IDENTIFICATION

CRYLUX ${ }^{\circledR}$ is the brand name for cast Polymethyl methacrylate sheets from POLYCASA.
The composition of the final product is $90-95 \%$ PMMA + additives (stabilisers, plasticizers, dyes and pigments, release agents).

CRYLUX ${ }^{\circledR}$ possibilities, characteristics and extraordinary range of colours cover all needs in construction, industry, decoration, lighting \& publicity.

CRYLUX ${ }^{\circledR}$ sheets are produced and tested according to UNE EN ISO 7823-1.

## 2. CHARACTERISTICS

CRYLUX ${ }^{\circledR}$ most outstanding properties are its optical transparency ( $93 \%$ light transmission for colourless sheets), its high impact resistance and lightness compared to glass.
CRYLUX ${ }^{\oplus}$ is resistant to UV rays, shows good thermal stability, low water absorption and good chemical resistance. It has the best abrasion resistance in our thermoplastic's product range.
CRYLUX ${ }^{\circledR}$ sheets are easy to handle and most fabricating and moulding techniques are applicable to it, allowing attractive designs.

## 3. APPLICATIONS

## Construction

- Skylights
- Vaults
- Glasswork
- Partition
- Doors
- Handrails
- Window sills
- Diffusing skylights
- Enclosures

## Industry

- Signs / Publicity

Security

- Furniture
- Sanitary furnishing
- Gift articles
- Industrial pieces
- Solariums
- Nautical
- Projection screens

## 4. FABRICATION AND FINISHING TECHNIQUES

CRYLUX ${ }^{\circledR}$ sheets are easy to handle.
Sawing, drilling, gluing, printing, milling, mechanical polishing, vacuum forming, hot bending do not offer any problems to the CRYLUX ${ }^{\circledR}$ range.
More detailed information on these items can be found in our "USER GUIDE".
