

Thickness tolerance

Cast Acrylic Sheets Policril® comply with the tolerance thickness values regulated in the ISO Norm 7823-1, which states that:

“The thickness tolerance for sheets in the range from 2 mm to 25 mm and up to 6 sqm in area shall be:

$$\pm (0,4 \text{ mm} + (0,1 \times h))$$

Where “h” is the nominal sheet thickness in millimetres.

Tolerances for sheet sizes and thicknesses outside the above ranges shall be agreed upon between the interested parties.”

IRPEN has also implemented and maintains a Quality Management System which fulfills the requirements of:

Standard ISO 9001 - 2008
Registration Number: ER-480/1998
