

Galaxy Fast Clean

Galaxy Fast Clean is a very powerful wash for conventional inks, to be used on rollers and blankets.

Application: Galaxy Fast Clean is a medium volatile wash for manual application. Suitable for cleaning printing rollers, ink ducts and rubber blankets. Galaxy Fast Clean can be used for cleaning pure or emulsified with water

Approval:

Procedure to use: For manual cleaning we recommend to dip a damped cloth into a mixture of Galaxy Fast Clean and water (mixture 1 : 1) and carry out the cleaning. Galaxy Fast Clean forms with water an emulsion. When all the ink is removed use a clean cloth with pure water only.

Product parameters: Appearance: clear to slightly yellow
Specific gravity: ~ 0,86 g/ml
Flash point: > 43°C
VOC content: 98,8% by 20°C

Storage conditions: Store at room temperature conditions. Keep away from open fire and heat sources.

Shelf life: In unopened, original packaging, 12 months from manufacturing date

Packaging: 20ltr jerry can, 200ltr PVC Drum, 1000ltr IBC

Version: 06-2018

The information provided in this technical data sheet is to inform our customers. A successful application depends on a variety of different factors. Therefore the advice given in this technical data sheet cannot be used as basis for claims. Our recommendation is where possible to perform tests before entering production runs. We reserve the rights to change product characteristics because of technical progress, amendment of applicable law and mandatory production related needs.
