

COMPACT[®] PAPER

(endless paper pallet)

ECO-FRIENDLY & SPACE-SAVING

Timesaving

- No need to prepare the cushioning material
- Very easy loading due to exchange of pallet
- No process interruptions

Better ergonomics

- No lifting of heavy rolls or paper stacks
- Minimum handling and physical effort for paper loading

Small space requirement

- Only one space for machine and paper
- More paper on the pallet compared to reels

Increased productivity

- Central pre-production of paper cushioning for several packing stations (PaperJet[®])
- Direct supply of all packing lines with integration system and storage container (PaperJet[®])
- Single packing places with very high filling volume (PaperJet[®] & SpeedMan[®] MAX)
