Data sheet

Canvas Florence

Genuine canvas-linen, mat

Product description:

Coated Canvas for art reproductions. 100% cotton, very tear resistant due to 2:1 weave with a pronounced texture. Dries water resistant even with a high ink limit.

Specific feature:

Canvas Florence is a matt coated 100% cotton canvas for high quality graphic arts applications. This product is particularly suitable for picture presentations of art and photo reproductions. The structure of the fabric is visible after printing. Due to the natural components (100% cotton) in the base material, the surface characteristics may vary slightly. Canvas Florence is water-resistant. Suitable for pigment and dye inks, indoor use. Pigmented or UV-inks are recommended for long term applications. Lamination or varnishing increases the durability of the prints. Easy further processing and good stretching properties.

Processing:

For quality reasons, the processing and storage of Canvas Florence should take place in a climate of 35-65% relative humidity and at a temperature of 10-30°C. Store in the original packaging in a cool, dry place, clean and dust free. A 24-hour climate adaptation in the processing area is recommended. Attention: turn off the automatic cutting option on your printer! We recommend you feed approximately 50cm of the media out before printing and cut manually after printing.

Technical specification:

Material:	GEWEBE
Application Area:	NUR IM INNENBEREICH
Surface:	MATT
Specific gravity:	395,00g/m²
Thickness:	595,00µm
B1-cert.:	nein
Cold lamination:	nein
can be sewn:	ja
can be streched:	ja
water resistant:	ja
Weissgrad:	75 CIELAB
DIN ISO 16245	Nein
