

# 51.200N | Total Blackboard

## TOTAL DECO | Chalkboard films

### ABOUT

Total Blackboard is a 130 micron matt black polymeric PVC film used as a chalkboard film for indoor and outdoor applications. This film carries a High Tack Removable adhesive that sticks to smooth painted walls while still removable for up to 1 year. Both solid, soft and liquid chalk marker inks are easily wiped clean with a damp cloth and will not leave any ghosting. Total Blackboard is printable with UV curable inks, making it possible to create custom designs.

We encourage to use our [97.010 | Blackboard Marker White](#) or, when using different markers, to consult the 'Total Blackboard marker compatibility list' on our website.
