PressTex Aqua

This PressTex Aqua wash cloth is made from absorbent wood pulp and PET which is joint together through a laminating spun laced process.

The PressTex Blue wash cloth is made of a compact texture which is characterize of his high liquid absorbency, excellent ink and paper dust cleaning capacity.

It is preferred cleaning material for the Printing industry.

Innovation	AtéCé a major global washcloth converter leads the industry with innovative washcloth developments. Our commitment is to continue developing and delivering innovative products that improve quality and printing time on press.
Technology	PressClean Washcloth are being produced with the most advanced production technique available and is the next generation in Washcloths.
Reliability	The consistency and quality of our new Washcloths and improved control gives a superior result on press.
Value	Improvements provided by PressClean improving production time and reducing down-times on press.
Ecology	PressClean Washcloths are another innovation from AtéCé Graphic Products.
